KEY STATS & SUMMARY

Stat	This Game	Auto Avg	PO Avg	Wyc Win Avg
xG	2.3	1.7	1.5	1.6
Net xG	2.1	0.6	0.4	0.4
PSxG	2.4	1.7	1.6	1.7
xT	1.4	1.0	0.9	1.1
Net xT	1.4	0.4	0.3	0.4
BPD	65.3	49.6	49.2	52.4
Net BPD	39.9	8.9	8.2	9.2
BPD to Box	21.0	14.6	14.0	14.3

- For the fourth successive league match, Wycombe had more xG (2.26 vs 0.11), xT (1.41 vs 0.00) and BPD (65.3 vs 25.4) than the opposition. Wycombe now have 3 of the top 6 highest net BPD matches in League One 24/25.
- The xG that Leyton Orient recorded (0.11) was the lowest any team has managed in League One this season (next lowest was Northampton against Bristol Rovers – 0.16). Their xT was also the lowest in any match this campaign (0.00).
- The press in the first half was very effective – Wycombe's ball win removed defenders was 13.1 in the first half (vs 4.9 in the second), which is higher than half of our league matches in their entirety.
- Our success rate of passes into the final third was 35%, the lowest it has been since Blackpool away. Of players to attempt more than 1 pass of this type, only Bakinson (3/5 – 60%) completed more than 50%. Bakinson also registered the most BPD in the match (12.2).
- Humphreys bypassed 10.6 defenders, the most he has done in any match for Wycombe.
- Fred attempted the same number of forwards passes as he did backwards ones in this game (8). He also bypassed 1.8 defenders through dribbles, which is the first time he has bypassed any via this method in a league game this season.
